

PRIVATE LABEL
PORTFOLIO

We are an all-Italian pharmaceutical CDMO, founded around content, the constant focal point of everything we do: liquid (such as solutions, suspension and microemulsion), gel and lyophilized pharmaceuticals, medical devices and cosmetics, both for human and veterinary uses and especially for ophthalmic but also for nasal, oral, respiratory, dermatological, otological and diagnostic applications.

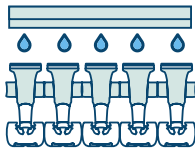

Our clients are multinationals and large groups but also small-medium sized pharmaceutical and cosmetics companies.

With decades of experience in the ophthalmic and respiratory sectors, we boast 3 production facilities -of which two authorised by AIFA and one of them also FDA approved-, 32 production lines and a workforce of more than 500 within 2 companies: C.O.C. Farmaceutici and Tubilux Pharma.

Our leading-edge technologies, widespread know-how and distinctive values make Content Group a sound pharmaceutical group specialising in contract development, production, filling and packaging.

We operate in compliance with European GMPs and in accordance with the ISO 13485:2016 and ISO 22716:2007 standards.

We are one of Europe's most acknowledged ophthalmic groups, with customers worldwide and significant growth prospects in Europe, the Middle East, North Africa and the USA.

PRODUCTS READY TO BE DISTRIBUTED

We offer customers a complete range of medical devices for nasal and eye care, ready for customisation with the graphics and brand of the distributor. They are CE-marked and can be sold in EU and non-EU countries, once they have been registered locally.

EYE CARE

A complete range of drops for eye care and for the most common eye problems, in single, multi-dose containers and polyfoil tubes with or without preservatives and available also in a spray version. The products combine the action of plant ingredients with cellulose and/or sodium hyaluronate, also in an innovative cross-linked version with a prolonged action. Thanks to their soothing and hydrating properties, the drops help alleviate redness, tiredness and irritation.
